Professional Summary

Information Science and Engineering undergraduate with experience in backend development, AI-powered applications, and cloud technologies. Hands-on experience through industry internships and academic projects, with a strong interest in building scalable software solutions and AI-driven systems.

Education

JSS Academy of Technical Education, Bengaluru *2023 – Present*
Bachelor of Engineering in Information Science and Engineering
CGPA: 9.1 / 10 (Pursuing)

Technical Skills

Languages: Java, Python,JavaScript, SQL

Frameworks & Libraries: LangaGraph,springboot,JSP/Servlets, MERN Stack (Basics), Scikit-learn, Pandas, NumPy

Tools & Technologies: Apache Tomcat, Git, GitHub, Postman, MySQL Workbench

Databases & Cloud: MySQL, MongoDB, AWS (S3,EC2,Secrets Manager)

Core CS Fundamentals: Object-Oriented Programming, Data Structures,DBMS, Operating Systems,computer networks

Experience

Rizzle Technology Pvt Ltd Feb 2026 – Apr 2026 *Backend Engineering Intern*

- Developed RESTful APIs using Spring Boot following layered architecture principles.
- Designed and implemented REST APIs using Spring Boot for multiple modules within the Academic ERP system.
- Led migration of Assessment Module APIs from Node.js to Spring Boot, improving backend consistency and maintainability
- Engineered complex Result APIs handling detailed business logic and data processing.
- Developed and automated integration testing workflows, improving system reliability and reducing manual QA effort.
- Integrated Amazon S3 for file storage and AWS Secrets Manager for secure credential management.

Technologies: Java, Spring Boot, REST APIs, AWS S3, AWS Secrets Manager, MySQL, Git,Postman.

Projects

AI-Enabled Smart Governance Platform

- Developed a smart governance platform using **React.js, FastAPI, and MongoDB** for reporting civic issues.
- Integrated **Computer Vision and NLP** to identify issues and classify complaints automatically.
- Designed a **multimodal decision engine** for intelligent complaint routing.
- Built **REST APIs** and automated notification workflows for real-time complaint tracking.

StudyForge AI

- Built an AI-powered study assistant for generating study plans, flashcards, and quizzes.
- Integrated **Groq LLM APIs** to provide personalized learning assistance and chatbot support.
- Developed secure **REST APIs** and **JWT-based authentication** for user management.
- Designed dashboards for study tracking, productivity monitoring, and learning analytics.

Placement Prediction Model

- Developed a machine learning model using **Logistic Regression** to predict student placement outcomes.
- Performed **data preprocessing and feature engineering** to improve model performance.
- Evaluated the model using **accuracy, precision, recall, and confusion matrix** metrics.
- Built an end-to-end workflow for placement prediction and analysis.

Leadership & Achievements

- **Delegate – DSI MUN 3.0 (UNHRC):** Collaborated with international delegates to conduct policy research, draft resolutions, and participate in structured diplomatic debates.
- **Co-Founder & Vice President – MUNSOC:** Led cross-functional teams, coordinated events, and worked closely with stakeholders to drive organizational initiatives.
- **Cognizant Technoverse 2026 Finalist:** Part of the Top 24 teams selected for the national finals of Cognizant's AI-focused innovation hackathon.
- **Placement Coordinator:** Collaborated with placement teams and students to support recruitment activities and improve coordination efficiency.
- **Volunteer:** Worked as part of team-driven initiatives for community and college events.

Certifications

- **AWS Cloud Practitioner Essentials** - AWS Training & Certification (2026)
- **Mastering Cloud Security with AWS** - AWS Cloud Practitioner Workshop (2026)
- **Introduction to Generative AI** (2025)
- **Machine Learning with Real World Projects** - L&T EduTech (2026)
