Professional Summary

Information Science and Engineering undergraduate with backend engineering internship experience in Java, Spring Boot, REST APIs, and AWS, alongside projects in AI-powered applications and machine learning.

Education

JSS Academy of Technical Education, Bengaluru 2023 – Present
B.E. in Information Science and Engineering **CGPA: 9.1/10**

Technical Skills

Languages: Java, Python, JavaScript, SQL
Backend: Spring Boot, REST APIs, JSP/Servlets, Node.js, Express.js, LangGraph
AI/ML: Scikit-learn, Pandas, NumPy, Generative AI, Groq LLM APIs
Databases & Cloud: MySQL, MongoDB, AWS S3, EC2, Secrets Manager
Tools & Fundamentals: Git, GitHub, Postman, Apache Tomcat, OOP, DSA, DBMS, Operating Systems, Computer Networks

Experience

Rizzle Technology Pvt. Ltd. | Backend Engineering Intern Feb 2026 – Apr 2026

- Developed REST APIs for multiple Academic ERP modules using Java and Spring Boot, following layered architecture principles.
- Led the migration of Assessment Module APIs from Node.js to Spring Boot and implemented Result APIs with complex business logic.
- Automated integration testing workflows and integrated AWS S3 for file storage and AWS Secrets Manager for secure credential management.

Projects

CivicMind AI-Smart Governance Platform *Python, FastAPI, React.js, MongoDB, YOLOv11, DeBERTa-v3*

- Developed AI-based detection for potholes, garbage, and manhole defects using YOLOv11 and DeBERTa-v3.
- Designed multimodal classification using 70% visual and 30% textual confidence weighting.
- Built reporting, automated department routing, MongoDB integration, and manual review for ambiguous predictions.

StudyForge AI *Node.js, Express.js, MongoDB, Groq API*

- Built an AI-powered study assistant generating personalized study plans, flashcards, and quizzes through Groq LLM APIs.
- Implemented JWT-based authentication, REST APIs, and dashboards for study tracking, productivity monitoring, and learning analytics.

Placement Prediction Model *Python, Scikit-learn*

- Developed a Logistic Regression model to predict student placement outcomes using data preprocessing and feature engineering.
- Evaluated model performance using accuracy, precision, and confusion matrix metrics.

Leadership & Achievements

- **Cognizant Technoverse 2026 Finalist:** Selected among the Top 24 teams in a national AI-focused innovation hackathon.
- **Co-Founder & Vice President, MUNSOC:** Led teams, coordinated events, and collaborated with stakeholders.
- **Placement Coordinator:** Supported campus recruitment coordination between students and placement teams.

Certifications

AWS Cloud Practitioner Essentials (2026) | Mastering Cloud Security with AWS (2026)
Introduction to Generative AI (2025) | Machine Learning with Real World Projects – L&T EduTech (2026)
